

**QUESTION**

1. The diagram shows a cross-section of a biological structure. The structure is composed of several layers. The outermost layer is labeled 'A'. The innermost layer is labeled 'D'. The middle layer is labeled 'B' and 'C'. The structure is shown in a cross-section, with the layers clearly visible. The diagram is labeled 'Diagram 1'.

**ANSWER**

The diagram shows a cross-section of a biological structure. The structure is composed of several layers. The outermost layer is labeled 'A'. The innermost layer is labeled 'D'. The middle layer is labeled 'B' and 'C'. The structure is shown in a cross-section, with the layers clearly visible. The diagram is labeled 'Diagram 1'.

2. The diagram shows a cross-section of a biological structure. The structure is composed of several layers. The outermost layer is labeled 'A'. The innermost layer is labeled 'D'. The middle layer is labeled 'B' and 'C'. The structure is shown in a cross-section, with the layers clearly visible. The diagram is labeled 'Diagram 2'.

3. The diagram shows a cross-section of a biological structure. The structure is composed of several layers. The outermost layer is labeled 'A'. The innermost layer is labeled 'D'. The middle layer is labeled 'B' and 'C'. The structure is shown in a cross-section, with the layers clearly visible. The diagram is labeled 'Diagram 3'.

4. The diagram shows a cross-section of a biological structure. The structure is composed of several layers. The outermost layer is labeled 'A'. The innermost layer is labeled 'D'. The middle layer is labeled 'B' and 'C'. The structure is shown in a cross-section, with the layers clearly visible. The diagram is labeled 'Diagram 4'.

5. The diagram shows a cross-section of a biological structure. The structure is composed of several layers. The outermost layer is labeled 'A'. The innermost layer is labeled 'D'. The middle layer is labeled 'B' and 'C'. The structure is shown in a cross-section, with the layers clearly visible. The diagram is labeled 'Diagram 5'.

6. The diagram shows a cross-section of a biological structure. The structure is composed of several layers. The outermost layer is labeled 'A'. The innermost layer is labeled 'D'. The middle layer is labeled 'B' and 'C'. The structure is shown in a cross-section, with the layers clearly visible. The diagram is labeled 'Diagram 6'.

7. The diagram shows a cross-section of a biological structure. The structure is composed of several layers. The outermost layer is labeled 'A'. The innermost layer is labeled 'D'. The middle layer is labeled 'B' and 'C'. The structure is shown in a cross-section, with the layers clearly visible. The diagram is labeled 'Diagram 7'.

8. The diagram shows a cross-section of a biological structure. The structure is composed of several layers. The outermost layer is labeled 'A'. The innermost layer is labeled 'D'. The middle layer is labeled 'B' and 'C'. The structure is shown in a cross-section, with the layers clearly visible. The diagram is labeled 'Diagram 8'.
