

1. The diagram shows the structure of a protein. The primary structure is the sequence of amino acids. The secondary structure is the local folding of the chain. The tertiary structure is the overall 3D shape. The quaternary structure is the assembly of multiple subunits.

- QUESTION**
- 1. The diagram shows the structure of a protein. The primary structure is the sequence of amino acids. The secondary structure is the local folding of the chain. The tertiary structure is the overall 3D shape. The quaternary structure is the assembly of multiple subunits.
 - 2. Describe the primary structure of a protein.
 - 3. Describe the secondary structure of a protein.
 - 4. Describe the tertiary structure of a protein.
 - 5. Describe the quaternary structure of a protein.
- ANSWER**
