

THE HISTORY OF THE UNITED STATES

The history of the United States is a complex and multifaceted story. It begins with the early settlements of Native Americans and the arrival of European colonists. The colonial period was marked by the struggle for independence, culminating in the American Revolution. This led to the formation of the United States as an independent nation, with the adoption of the Constitution. The subsequent years saw westward expansion, territorial growth, and the industrial revolution. The progressive era brought about significant reforms, and the modern era saw the rise of the New Deal and the post-war era.
