

Hi-Dam

Hi-Dam is a self-healing repair mortar.

100%

Advantages

• High strength
• Self-healing
• Easy to apply

Applications

• Cracks in concrete
• Spalls in concrete

Technical Data

• Compressive strength: 40 MPa
• Tensile strength: 2.5 MPa
• Modulus of elasticity: 25 GPa

• Density: 2.3 t/m³
• Water absorption: 10%
• Chloride permeability: 10000 C/m

Product Description

Usage Instructions

• Clean the surface
• Apply the mortar
• Cure for 28 days

Storage and Handling

• Store in a cool, dry place
• Avoid contact with water
