Because sound is subjective, we do not warranty for sound. There are usually several ways to adjust the sound of your exhaust kit. Please contact your dealer or MBRP directly to discuss these options.

Tip Maintenance: Your 304 Mirror Polished Stainless-Steel tips are not a maintenance free product. For best results – use a chrome polishing or stainless-steel cleaner to maintain the shine and reduce rust. Warranty on this product and MBRP black coated tips covers defects in the material and workmanship only, and does not extend to pitting, stone chips or other damage. MBRP recommends the use of mud flaps and encourages regular cleaning and maintenance to assist with reducing any changes to appearance due to road treatments.
